The Only HVAC and Energy Solutions Resource You'll Ever Need

Providing a complete package of fully integrated, single-source solutions ranging from engineering applications and automated control systems to turnkey in-house capabilities including design assistance, we can support a variety of your facility needs.

We provide customers with high quality consulting and services that address today's most compelling energy related issues, including CFC phase outs, LEED, Energy Star, and federal energy savings mandates. What's more, we offer packaged solutions with long-term support and easy access to timely information — and with a single point of contact. We design it, install it, service it, and maintain it.

The bottom line is we're here to help you maintain a business environment that is efficient and cost-effective, as well as comfortable.

Mobile Service Solutions

To ensure the best service on demand, anytime, anywhere, our technicians use wireless CN3 mobile field devices, an integrated Bluetooth and WiFi-enabled field service communications and camera system that allows technicians to communicate real-time with the home office via the Internet. The CN3 mobile service solution includes the following cutting-edge functions:

- Equipment catalog with service diagnostics
- Client signature capture to help ensure billing clarity
- Technician call status and location
- Wireless transfer of service tickets and time sheets
- Instant wireless dispatch of work orders to technicians
- Instant access to job site and work order history
- Equipment inventory for maintenance contracts
- Wireless messaging from technician-to-office
- Automates costly, unproductive paper-intensive processes
- Reporting of repairs found by technician, job site, date, etc.
- Integrated camera for equipment photos

Simply put, our CN3 handheld device solution provides you with a higher level of communication while improving your operations for HVAC outsourced service.

Our sales team is ready to develop a tailored solution that fits your facility needs. Call us at one of the numbers below or visit us on the web at www.emcornevada.com
