A name you can trust in HVAC and Energy Efficiency.

EMCOR Services Nevada, a division of EMCOR Services Mesa Energy Systems, is a licensed HVAC maintenance service, building automation, and retrofit contracting company serving the Reno and Las Vegas markets.

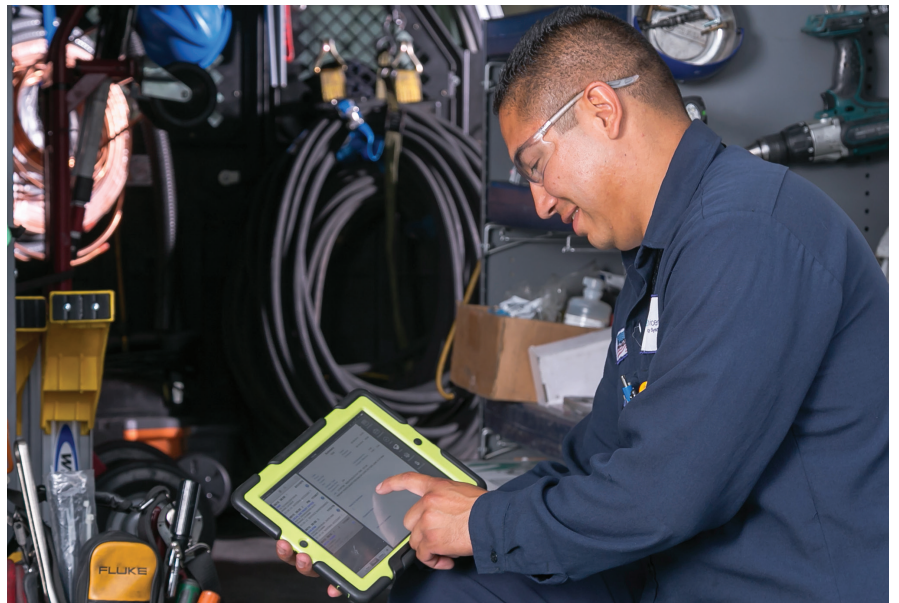

We have earned a reputation for providing value to our many satisfied customers through high-quality consulting services and efficient, cost-effective, customized installed solutions. Mesa Energy Systems, a wholly owned subsidiary of EMCOR Group, Inc. (NYSE: EME) also has 10 additional offices in California and Arizona.

Using the latest equipment in advanced, state-of-the-art, diagnostic and automated control technologies, our goal is to minimize the cost of operating your building environment without sacrificing occupant comfort. Our business is built on a tradition of innovation and is marked by principles of integrity, quality, functionality and dependability.

HVAC and Energy Solutions to Meet Your Exacting Requirements

Providing a complete package of fully integrated, single-source solutions ranging from engineering applications and automated control systems to turnkey in-house

capabilities including design assistance, we can support a variety of your facility needs. We provide customers with high quality consulting and services that address today's most compelling energy related issues, including CFC phase outs, LEED, Energy Star, and federal energy savings mandates. What's more, we offer packaged solutions with long-term support and easy access to timely information — and with a single point of contact. We design it, install it, service it, and maintain it. The bottom line is we're here to help you maintain a business environment that is efficient and cost-effective, as well as comfortable.

Mobile Service Solutions

Our goal is to ensure the best service on demand, anytime, anywhere, so our technicians use wireless tablet devices with integrated WiFi-enabled field service communications and camera functionality that allows technicians to communicate real-time with the home office online. The tablet technology solution includes the following cutting-edge functions:

- » Equipment catalog with service diagnostics
- » Client signature capture to help ensure billing clarity
- » Technician call status and location
- » Wireless transfer of service tickets and time sheets
- » Instant wireless dispatch of work orders to technicians
- » Instant access to job site and work order history
- » Equipment inventory for maintenance contracts
- » Access to industry-specific applications for help in troubleshooting
- » Automates costly, unproductive paper-intensive processes
- » Reporting of repairs found by technician, job site, date, etc.
- » Integrated camera for equipment photos

Simply put, our tablet technology solution provides you with a superior level of communication with the goal of improving your operations for HVAC outsourced service.
